PUBLIC WORKS DIRECTOR/CITY ENGINEER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are <u>not</u> intended to reflect all duties performed on the job.

DEFINITION

Plan, direct, manage, and oversee the activities and operations of the Maintenance and Integrated Waste Services; oversees Engineering, Maintenance and Integrated Waste services and inspections, and contract administration for public works, infrastructure improvements; to coordinate assigned activities with other divisions, departments and outside agencies; and to provide highly responsible and complex administrative support to the Community Development Director.

SUPERVISION RECEIVED AND EXERCISED

Receives general administrative direction from the City Manager.

Exercises direct supervision over management and clerical staff; oversees contract staff.

ESSENTIAL FUNCTION STATEMENTS

Essential responsibilities and duties may include, but are not limited to the following:

Essential Functions:

- Assume full management responsibilities for all department services and activities including Engineering, Maintenance and Integrated Waste Divisions. Oversees capital projects and project design, contract engineering and inspection and maintenance of all city facilities; recommend and administer policies and procedures.
- Participate in the necessary certification programs to possess and maintain current Certificate of Registration as a professional Civil Engineer in the State of California.
- Manage the development and implementation of departmental goals, objectives, policies and priorities for each assigned service area, including capital and maintenance projects; perform engineered designs when applicable.
- Plan, direct and coordinate, through assigned staff, the Public Works Department's work plan; assign projects and programmatic areas of responsibility; review and evaluate work methods and procedures; meet with key staff to identify and resolve problems.
- Assess and monitor workload, administrative and support systems, and internal reporting relationships; identify opportunities for improvement; direct and implement changes.
- Work with architects, engineers, and contractors concerning technical interpretations and applications of ordinances, laws, engineering codes, compliance and violation issues, drainage and traffic matters, access, legal descriptions, and policy matters; prepare or amend the City Code and standards for streets, drainage, subdivisions regulations and flood hazards.
- Negotiate with developers and consultants concerning clarification and implementation of development code requirements and map conditions.

Essential Functions (continued):

- Evaluate capital improvement project plans, maintenance activities and programs, and make recommendations for areas of improvement.
- Direct and coordinate the preparation of agreements, dedications, easements, vacation, and land development documents for the Planning Commission and City Council agenda and approval process.
- Monitor and inspect city facilities; oversee all maintenance activities, including scheduling and security, for facilities and all city properties; insure coordination of park maintenance with the Recreation Department.
- Prepare a variety of letters and formal correspondence, including grant applications, requests for proposals and contract bids; prepare agendas for City Council action; gather and disseminate important information for division staff.
- Select, train, motivate and evaluate assigned personnel; provide or coordinate staff training, work with employees to correct deficiencies; implement discipline and termination procedures.
- Oversee and participate in the development and administration of the department budget and the City's annual capital improvement program; approve the forecast of funds needed for staffing, equipment, materials and supplies; approve expenditures and implement budgetary adjustments as appropriate and necessary.
- Explain, justify and defend department programs, policies and activities; negotiate and resolve sensitive and controversial issues.
- Represent the Public Works Department to other departments, elected officials and outside agencies; coordinate assigned activities with those of other departments and outside agencies and organizations.
- Provide staff assistance to the City Manager; participate on a variety of boards, commissions and committees; prepare and present staff reports and other necessary correspon dence.
- Attend and participate in professional group meetings; stay abreast of new trends and innovations in the field of public works.
- Respond to and resolve difficult and sensitive citizen inquiries and complaints.
- Maintain physical and mental capacities appropriate to the performance of assigned duties and responsibilities.

Marginal Functions:

Perform related duties and responsibilities as required.

Knowledge of:

Operational characteristics, services and activities of engineering and public works maintenance program.

Principles and practices of civil engineering as applied to the development and management of public works.

Principles and practices of program development and administration.

Principles and practices of contract negotiation.

Principles and practices of municipal budget preparation and administration.

Administrative requirements for present and future local, State and Federal grants and other funds, including, but not limited to, Measure "C": Gas Tax and other state propositions.

Methods and material and techniques employed in public works construction.

Recent developments, current literature and sources of information in municipal public works administration.

Principles and practices of construction program development.

Principles and practices of business letter writing and report preparation.

Principles of supervision, training and performance evaluation.

Pertinent Federal, State and local laws, codes and regulations.

Ability to:

Manage and direct a comprehensive engineering and public works program, including Maintenance and Integrated Waste Services.

Develop and administer departmental goals, objectives and procedures.
