FAIRMONT AFTER SCHOOL ENRICHMENT PROGRAM

FASEP Session 1: Fall 2021

Online Registration: Tuesday, September 7, 2021 at 8:30am

Classes Begin: Monday, September 20, 2021

Together with your school and parent groups, The El Cerrito Recreation Department coordinates with professional instructors, coaches and organizations to host a variety of classes held conveniently after school on the Fairmont campus. We strive to offer a program that allows students to discover and develop new passions in academics, visual arts, athletics, engineering, performing arts and more!

1. Beginning 8/19 online registration and payment of course fees can be completed at www.el-cerrito.org/onlinereg. Registration is only accepted online through the El Cerrito Recreation Department.
2. FASEP inquiries can be directed to the El Cerrito Recreation Department at recreation@ci.el-cerrito.ca.us or (510) 559-7000.
3. Registration will be open for all at the same time and is first come, first served. All classes have varying minimum and maximum enrollment sizes. Classes may be subject to cancellation if minimum enrollment is not fulfilled. You will receive a full refund if a class is cancelled due to low enrollment. A waitlist will be maintained for classes that fill to their maximum enrollment.
4. During the online registration process, all registrants will be asked to agree to the FASEP Policy Statement and Waiver. Please review these policies carefully, as they contain important information on COVID-19 protocols, check-in, pick-up, materials fees, refunds, inclement weather procedures and more.
5. If applicable, Materials Fees must be paid directly to the FASEP course instructor by the first day of class. Failure to pay materials fees by the 3rd class may result in dismissal from class with no refund of the paid course fee. Your registration receipt will contain information on paying the Materials Fee via check or PayPal.
6. Many FASEP classes take place outdoors. **Outdoor classes are subject to cancellation due to inclement weather such as heavy rain or poor air quality.** Families will be notified via email and/or phone call if classes are cancelled. Every effort will be made to add make-up time for missed class time due to inclement weather. If make-up time is not possible, families will receive a prorated credit on their account. **Families must be prepared with alternate after-school plans if FASEP classes are cancelled.**
7. COVID-19 Protocols will be in place throughout the session, in line with school procedures. Face coverings are required in all FASEP classes, including outdoors. Social Distancing will be implemented wherever possible. Students are required to stay home if exhibiting any signs of illness or fever. If a student did not attend school due to illness, they may not attend their FASEP class. It is recommended that children limit the number of different extracurriculars in which they participate.
8. Fairmont Aftercare students must check-in at the Fairmont Clubhouse or MPR prior to their FASEP class. City Staff will escort them to their FASEP class. All other students must check in directly with the class instructor at the class location.

MONDAY

Sports & Games: X-Fit Training

Grades: 1-6

X-Fit Sports & Games is an energetic program where participants will learn fundamental skills in a variety of individual and team sports, as well as popular school yard games. Every child will improve their athletic ability and will leave with a feeling of accomplishment. **No class 9/20; class begins Mon, 9/27.**

TUESDAY

Super Soccer Stars Classic Skills: Super Soccer Stars

Grades: 2-5

Classic Skills classes aim to improve children's elementary capacity through fun games, technical skill development and group activities. The primary focus of this session is to increase familiarity of space to enable children to develop team skills in an athletic environment. Emphasis is placed on awareness of teammates constantly so that these skills can be easily transferred into future soccer games. Players enjoy ball activities with high repetitions to promote muscle memory that builds confidence and ball control skills. **No class 9/21; class begins Tues, 9/27.**

WEDNESDAY

Kassirer Tennis: Kassirer Sports

Grades: 1-6

Kassirer Tennis was created by Laura Kassirer, a former Wimbledon player. Coaches provide junior racquets & starter balls, and emphasize sportsmanship and teamwork while instilling that every child can succeed through persistence and practice. Players will learn professional quality fundamentals and enjoy group games while improving fitness, hand-eye coordination, agility, and ability to rally. Class will be grouped by grade so coaches can teach to each player's level and abilities. Coaches also make sure players are socializing, staying active and smiling a lot!

THURSDAY

Kassirer Basketball: Kassirer Sports

Grades: 1-6

Kassirer Basketball was developed by a former professional athlete, and provides players the opportunity to learn quality fundamentals as well as defensive and offensive tactics. Players will also enjoy basketball games and small scrimmages each week. Coaches provide kid-sized lighter basketballs, and group by grade to teach to each player's ability. Classes emphasize sportsmanship, communication, technique and teamwork while instilling that every child can succeed through persistence and practice. Our coaches also make sure your kids are socializing and smiling a lot!

Art with Miss Lisa: Building on Nature: Lisa diPrima

Grades: 2-6

Inspired by the Catalan architect Antoni Gaudi's innovative use of form color and texture, children will create natural landscapes using a variety of 3 dimensional materials. Students will work with clay, plastiline, model magic, shells, leaves, stones, and branches. They will then paint and decorate their work with acrylic paint, crystals, florist's grass, miss and whatever else suits their fancy. Every class begins with a book and ends with a sweet treat. **No class 9/23; class begins Thurs, 9/30.**

FRIDAY

Sensational Science for Kids: Veronica Medina-Ross

Grades: 1-5

This science program is based on learning through exploration and experimentation. Kids will learn the science behind current topics such as environmental science, life science, biology, chemistry and forensics. Students will also learn that with science we can make art projects. Our hands-on experiments are designed to be fun and engaging, and will assist children in developing skills of inquiry and investigation. They will teach kids the scientific process while creating inspiring and surprising results. **No class 9/24; class begins Friday 10/1.**
